Company Information

Shenzhen Wenlu Trading Co., Ltd. was built up in 2018, mainly specializing in industries of Plastics & Metals & Aluminums part manufacturing.

But our business was starting from 2015. At that time, although we only had one stable USA customer who was developing locker spare parts, but it helped us grow up smoothly. Thankful for that, in the coming few years, with our reasonal profit and perfect service and quatlity, we got trust from more new customers.

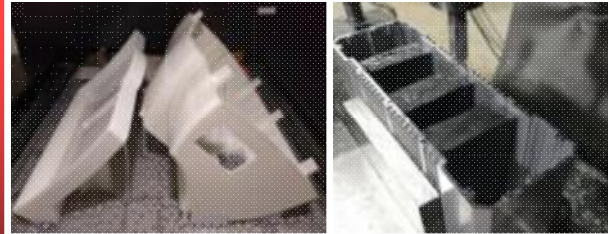

Till now we have sucessfully cooperated with customers from USA, Russia, and Germany, for their integrated projects.

“Business never comes by itself” . WENLU will continuely prove his quality and service, by perfectly finishing every project to win more business.
